30	£136.01	£196.24
Privacy/frosted film:		
762mm wide £8.30 per m		
1524mm wide £16.00 per m		

Apply to glass *before* it cracks or breaks. Holds glass together, should it break, greatly reducing risk of injury. To make it easier to install, it is necessary to cut film to approximately 12mm wider and taller than each pane (excess is easily trimmed off after application). Film is easy to cut to size, but we can do it for you for £2.42 per piece.

Once applied, the film will upgrade the glass to comply with BS EN 12600 (2B2 classification), which has now replaced BS6206 class B. BS EN12600 safety film should be used wherever BS6206 film was specified previously. If you need to prove compliance we can supply small unobtrusive transparent labels to put in a corner of each pane under the film (3p each) and a certificate of compliance (comes free of charge with the labels).

SPECIFICATIONS:

Film thickness 0.1mm = 100µ (100 microns) = 4 MIL (a mil is one thousandth of an inch). Break Strength – 28.5 kg/mm². Full spec sheet available on request.

INSTRUCTIONS: The film is easy to fit and comes with full instructions. Please let us know if you would like to see the instructions before you make your purchase.

TOOLS: You will need: a squeegee (a rubber-bladed tool, as used by window cleaners), a sharp trimming/Stanley knife, a purpose-made window scraper tool, a straight edge/ruler (to cut along), a fluff-free soft cloth, spray bottle filled with a wetting solution of water and washing-up liquid (or a bowl and a sponge to apply it). The squeegee is the most important tool. You may have a tool in your car which you use for cleaning your windscreen and this may be suitable, but for large areas of glass a 290mm wide window-cleaner's type squeegee is recommended.

Also available: **EMERGENCY GLASS REPAIR FILM** (91 microns thick, for temporary repair of cracked glass). 600mm wide. £4.90 per metre for 1 to 9 metres. £39 for a 10m roll.

Tools for applying glass safety film

Window scraper tool
£4.32
to clean paint etc from glass before film application

290mm squeegee
£7.41
Recommended for large areas of glass

150mm combined squeegee/edge guide.
£4.60
Useful straight edge for cutting along.
Recommended for smaller glass areas

Spray bottle
£4.20
For spraying wetting/slip solution onto glass.

HOW TO ORDER

You can order on our online store, or by telephone, email, fax or post. For personalised items please phone or email.

PAYMENT

Card payments are only possible for transactions our website. We are unable to accept credit/debit card payments by phone. Online we use two payment service providers: Nochex and Paypal - if one does not work for you please try the other.

You can also pay by internet banking / BACS. Just email, fax or phone your order through and we'll send you an invoice with our account details on it (if you're sending money from outside the UK please ask for our IBAN and SwiftBIC details and transfer money in GBP (£)). Please let us know the transfer has been initiated, so we can look out for it.

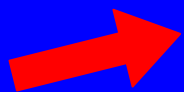

Please make cheques payable to Chesterford Ltd and write the last 4 digits of the order/invoice number on the back or on remittance advice. This is the slowest payment method as it takes time for the cheque to clear.

DELIVERY

Delivery charges vary. See delivery times on website. For email/telephone/faxed orders please ask for an estimated delivery date.
